WHISKY / COGNAC FEATURES

The Whiskys of Suntory — Yamazaki

Yamazaki -The very first distillery established in Japan to produce whisky. This is where both of the Godfathers of whisky began their careers. Shinjiro Torii, "the nose," brought his dream of making Japanese Whisky to life, breaking ground on the distillery in 1923. His first master distiller studied whisky in Scotland in 1923. Yamazaki was established in 1929 on the foothills of Mt. Tenno. Yamazaki is famous for its ability to deftly use casks in maturation to make truly wonderful whiskies. The Yamazaki single malts are slightly floral but round and heavy, leaving a strong impression.

The Whiskys of Suntory — Hakushu

The majestic forest that surrounds the Hakushu Distillery shelters an abundance of plant varieties reflecting the many expressions of Japanese nature. The malt whiskies born here are simultaneously blessed with a very particular microclimate, verdant forests, and water offering a rare softness and purity, only made possible by filtration of rain and snow through thousand-year-old granite rocks.

The word Hibiki literally means "echo," but can relate to the emotion one gets when being inspired by something. A superb blended whisky with over 30 whiskeys used to add depth and complexity. The style of Hibiki is soft and sweet with deep, nuanced flavors.

The Whiskys of Nikka

Masataka Taketsuru was born into a Sake brewing family in Hiroshima and is the 1st distiller of Japanese whisky. He began his career as the Master distiller of Yamazaki distillery. He was the first Japanese apprentice of whisky in Scotland. He learned the craft of making great whisky in Scotland at Longmorn distillery in Speyside. Yoichi, the place chosen by Masataka, was close to the sea, surrounded by mountains on three sides and in many ways similar to Highland in Scotland. A cold climate with an appropriate humidity, crisp clean air and fresh water - everything necessary for his ideal whisky was available.

The Whiskys of Venture Chichibu

It all started some three centuries ago when the first of Ichiro Akuto's forefathers began making alcoholic beverages in Saitama Prefecture. His Grandfather began making whisky in the mid 1940's with Hanyu Distillery, whose focus on malt whiskies took off with the Japanese economic boom of the 1980's. However, when the bubble burst in the 1990's, so too did the first Japanese Whisky boom, leading to Hanyu, like several other distillers, shuttering their doors. He saved the old inventory of Hanyu and released the playing card series. A slow start in the early 2000s now unicorn whisky, the stuff of legend. With the success of the playing cards Ichiro saw that the revival was imminent and in 2008 he built his current distillery in Chichibu. Chichibu distillery where Ichiro, a 21st century whisky maker embraces the heritage and heart of the Scotts balanced by the precision of the Japanese and the shokunin philosophy.

The Whiskys of Mars

Sandwiched between Japan's soaring Southern Alps and the towering Central Alps, at just over 2,600 feet, Mars Shinshu is Japan's highest whisky distillery. The Hombo family have been distilling for more than a century and they added whisky to their repertoire in 1949. Back then the distillery was located in Kagoshima Prefecture on the southernmost island of Kyushu. Until 1984, it was the southernmost whisky made in Japan, which ended with the Hombo clan moving the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture. They chose this site for its cool temps, which slowed maturation, and the plentiful, soft, granite filtered snowmelt fed aquifers. Smart choice. The whiskies are elegant, smooth and very complex.

The Whiskys of The Macallan

The Macallan reputation for the extraordinary is characterized by the exceptional oak casks for which The Macallan is renowned. Sourced, crafted, toasted and seasoned under the watchful eye of The Macallan Master of Wood, the hand-picked casks are delivered to the demanding specifications of The Macallan Master Distiller and his team. For every Macallan expression, the quality of the whisky is largely dependent on the quality of the oak casks it is matured in, as well as the quality of our 'new make' spirit distilled from water, yeast and barley. With up to 80% of The Macallan's final character and flavor determined by cask quality, the oak cask is the most prominent factor in ensuring and delivering the quality and style of our single malt.

The Whiskeys of Blanton's — Blanton's Single Barrel Bourbon

Blanton's was born from the oldest continuously operated distillery in America, Buffalo Trace. In the winter of 1881, Albert Bacon Blanton was born into one of the first families of bourbon history. At the age of sixteen, he started work in the Distillery as an office boy and quickly became a leading pioneer in the development of bourbon. From the time he was made company president in 1921 until his retirement in 1952, his Distillery expanded from 44 to 144 buildings to become the largest Distillery of its day. During that period Colonel Blanton created his very special and limited supply of bourbon - his private reserve - handpicked and stored in what now is known as the famous Warehouse H. Although Colonel Blanton died in the spring of 1959, his legacy lives on. Introduced in 1984, Blanton's namesake bourbon was the first ever Single Barrel Bourbon sold commercially. The Single Barrel Bourbon is the first of its kind. Roka Akor is proud to partner with Blanton's Single Barrel Bourbon to bring you these unique selections for a limited time only.

The Cognacs of Remy Martin

The House of Rémy Martin's story was written by audacious and spirited men and women —and it will continue to be so. In 1738, King Louis XV of France granted Rémy Martin the rare right to plant new vines in recognition of the excellence of his cognacs. To accompany the House's development abroad, he chose the Centaur as the House's emblem, creating the very first logo. An avid astronomer, it was also his star sign, Sagittarius. In 1830 the 1st grand cognac was created.
