WHISKY / COGNAC FEATURES

The Whiskys of Suntory — Yamazaki

Yamazaki -The very first distillery established in Japan to produce whisky. This is where both of the Godfathers of whisky began their careers. Shinjiro Torii, "the nose," brought his dream of making Japanese Whisky to life, breaking ground on the distillery in 1923. His first master distiller studied whisky in Scotland in 1923. Yamazaki was established in 1929 on the foothills of Mt. Tenno. Yamazaki is famous for its ability to defly use casks in maturation to make truly wonderful whiskies. The Yamazaki single malts are slightly floral but round and heavy, leaving a strong impression.

The majestic forest that surrounds the Hakushu Distillery shelters an abundance of plant varieties reflecting the many expressions of Japanese nature. The malt whiskies born here are simultaneously blessed with a very particular microclimate, verdant forests, and water offering a rare softness and purity, only made possible by filtration of rain and snow through thousand-year-old granite rocks.

The Whiskys of Nikka — Yoichi

Masataka Taketsuru was born into a Sake brewing family in Hiroshima and is the 1st distiller of Japanese whisky. He began his career as the Master distiller of Yamazaki distillery. He was the first Japanese apprentice of whisky in Scotland. He learned the craft of making great whisky in Scotland at Longmorn distillery in Speyside. Yoichi, the place chosen by Masataka, was close to the sea, surrounded by mountains on three sides and in many ways similar to Highland in Scotland. A cold climate with an appropriate humidity, crisp clean air and fresh water - everything necessary for his ideal whisky was available. The proximity to the sea is one of the distinctive features of Yoichi. The sea breeze gives a briny hint to the whisky during the maturation.

The Whiskys of Nikka — Miyagikyo

Masataka aimed to make his blend more complex by widening the variety of whiskies. In 1967 he was exploring the northern part of the main island to find another ideal site for his second distillery. He came across a beautiful foggy glen surrounded by mountains and at a junction of two clean rivers. Once he tried the water from one of the rivers, which is now the water source, he was so impressed and immediately decided to build a distillery there. The name of the river was Nikkawa river by coincidence.

The Whiskys of Venture Chichibu

It all started some three centuries ago when the first of Ichiro Akuto's forefathers began making alcoholic beverages in Saitama Prefecture. His Grandfather began making whisky in the mid 1940's with Hanyu Distillery, whose focus on malt whiskies took off with the Japanese economic boom of the 1980's. However, when the bubble burst in the 1990's, so too did the first Japanese Whisky boom, leading to Hanyu, like several other distillers, shuttering their doors. He saved the old inventory of Hanyu and released the playing card series. A slow start in the early 2000s now unicorn whisky, the stuff of legend. With the success of the playing cards Ichiro saw that the revival was imminent and in 2008 he built his current distillery in Chichibu. Chichibu distillery where Ichiro, a 21st century whisky maker embraces the heritage and heart of the Scotts balanced by the precision of the Japanese and the shokunin philosophy.

The Whiskys of Mars

Sandwiched between Japan's soaring Southern Alps and the towering Central Alps, at just over 2,600 feet, Mars Shinshu is Japan's highest whisky distillery. The Hombo family have been distilling for more than a century and they added whisky to their repertoire in 1949. Back then the distillery was located in Kagoshima Prefecture on the southernmost island of Kyushu. Until 1984, it was the southernmost whisky made in Japan, which ended with the Hombo clan moving the distillery to the idyllic alpine setting of Miyada village in southern Nagano Prefecture. They chose this site for its cool temps, which slowed maturation, and the plentiful, soft, granite filtered snowmelt fed aquifers. Smart choice. The whiskies are elegant, smooth and very complex.

The Cognacs of Remy Martin

The House of Rémy Martin's story was written by audacious and spirited men and women —and it will continue to be so.

In 1738, King Louis XV of France granted Rémy Martin the rare right to plant new vines in recognition of the excellence of his cognacs. To accompany the House's development abroad, he chose the Centaur as the House's emblem, creating the very first logo. An avid astronomer, it was also his star sign, Sagittarius. In 1830 the 1st grand cognac was created.

MEZCAL FEATURE

Bozal Mezcal

Roka Akor is proud to have Bozal as our premium Mezcal.

On the steep precarious hillsides of Oaxaca and Durango, varieties of agave indigenous to the region grow wild and are heavily sought after by the local mezcaleros. These varieties produce flavors that are exotically intense, with rich earth tones and savory smokiness. From the heart of the maguey, these flavors are traditionally extracted to produce mezcal that is wildly refined. Please enjoy these unique expressions of Mezcal. Ask your server about these unique expressions and which one you might enjoy, or try them in a flight.
